

We are currently seeking an expression of interest for a Technical Manager to join HB Group.

Do you have vast knowledge of the Concrete and Quarry Industry?

Are you looking for a role that is technically challenging?

Looking to work with a successful team?

About Us

HB Group of Companies are a well-established Darwin company who are industry leaders in the manufacturing of ready-mix concrete across the Top End.

About the Role

We are currently seeking expressions of interest from experienced people for the position of Technical Manager. The position is expected to become available May 2019.

Reporting directly to the General Manager, HB Group, the focus of the role is to provide specialist technical support and services to HB Concrete and Quarry management and its customers. You are expected to be the most knowledgeable point of contact for HB Concrete Pty Ltd.

This role is for commencement in MAY 2019.

Duties

- The development and maintenance of professional working relationships with customers and HB Concrete and HB Quarry personnel
- The distribution of competent, accurate, comprehensive information applicable to the performance of Ready-mix concrete
- The development and maintenance of comprehensive technical knowledge relating to Ready-mix concrete and concrete additives
- Maximise the benefits to HB Group and its customers through the provision of expert technical support and guidance
- Proactively investigate, analyse, report and resolve issues and customer complaints

Skills & Experience

To be successful within this role, you will have:

- Minimum 5 years Product Technical Management experience in the Ready Mixed Concrete industry or similar industry
- Previous experience within managerial position
- Extensive and proven customer service experience

- A high degree of computer literacy (MS Office), business systems and quality management systems
- Strong commitment to safety and quality with a customer focus
- Current Drivers licence
- Well-developed analytical skills
- A strong understanding of NATA requirements

A Diploma or Degree in Civil Engineering, Materials Science & Advanced Concrete Technology would be highly advantageous

Benefits

- Long term Northern Territory organisation
- Great working environment

We thank you in advance for your interest and will review all expressions, however only shortlisted candidates will be contacted. Applicants must have valid AU working rights.

This role is being managed directly & recruited for by HB Groups HR team. We will reach out to our preferred agency partners in the rare instance we require additional talent options.

HB Group is proud to be an Equal Employment Opportunity employer. We value and seek diversity in our workforce.
